

# PRODUCT INFORMATION

## CHOICE

Even 36 models with different heating power (9, 11, 14, 16, 19 and 25 kW), glazing (straight or corner) and the method of opening the door (traditional or guillotine).

## PERSONALIZATION

The possibility of individual glazing type: printed Decor, bent glass or double glazing.

## QUALITY

Fireplace inserts are made of high-quality P265GH boiler steel, which is resistant to continuous operation at higher temperature. As well reinforced door profile is used.

#### REPEATABILITY

Production process use modern machinery park: welding robots, press brakes, laser cutters.

#### **ECOLOGY**

Comply with strict emission standards and the ECODESIGN, thanks to the use of an after-burning system and high efficiency.

## SECURITY

An innovative ventilated handle protects against scalding. Suitable for homes with recuperation.

#### EASY-TO-USE

The built-in intake with the throttle enables smooth integrated regulation of the amount of air supplied.

# **CLEANLINESS**

The air curtain provides the effect of "clean glass" and easy cleaning of the insert is possible thanks to the cast iron grate with a removable container for ash.

Nominal power [kW]	14,0
Heating load range [kW]	7-18
Thermal efficiency [%]	83
CO emission (by13% $O_2$ ) [g/m³]	0,845
Dust emission [g/m³]	0,032
Average fuel consumption [kg/h]	4
Recommended active area of outlet grids [cm²]	980-1120
Recommended active area of inlet grids [cm²]	560-910
Dimensions of the glass [mm]	590x430x375
External dimensions [mm]	904x1231x655
Max. log lenght [mm]	350
Diameter of the flue [mm]	200
Inlet diameter [mm]	125
Weight [kg]	215
Efficiency coefficient	111,4
Energy class	A <sup>+</sup>

#### OTHER EQUIPMENT:

Ceramic deflector, heat pipes, steel flue, adjustable feet (+4 cm), heat radiators.

# ADDITIONAL OPTIONS:

Masking frames 3/4 and 4/4, additional legs (+10 cm), glass DEKOR, bent glass, double glazing.
